

2015 PARA Coaches Report

The 2015 PARA season can be called a success, marked by quality championship races and venues. The new championship schedule worked as expected.

Area for Concern:

- The pool of working coaches in PARA continues to decline.
- Limited availability of coaches who are willing to take post season assignments
- The state wide shortage of course setters
- A small pool of Coaches who carry a Referee License

Recommendation:

- Continue the partnership with USSA East to bring more Education opportunities to PARA
- Clubs need to put an emphasis on developing coaches
- PARA should continue to promote speed development and the use of the Blue Mountain SG camp

Respectfully submitted by,

Bruce Newman
